

Dear Members and friends;

This is a map showing the location of cabins and other features of interest in Camp 3 - Goodwill, at Prince William Forest Park. You have been assigned to cabin space                     . It is necessary to provide your own bed linens, blankets, pillows (or sleeping bag) and towels; cots and mattresses are provided in each cabin.

Do not rearrange or remove furniture or fixtures in cabins.

Do not bring cooking utensils; all cooking will be done in the dining hall.

Fires are permitted only in the designated areas and only fireplace wood provided by the Park is to be used.

Animals are not permitted in the area unless on a leash (not over 6 feet) or under other physical restrictive control at all times.

Beer, wine or liquors, firearms, fireworks, slingshots and archery equipment are all prohibited in the Park.

All persons in each area will be responsible for maintaining cleanliness and sanitary conditions in the rest rooms and grounds in their area. May I recommend - if it needs cleaning, don't wait for your neighbor to do it, clean it yourself! We will provide adequate cleaning supplies, and remember if this becomes an annual event our permit next year will depend on the standards we maintain this year.

When you arrive, please park in designated parking area and walk to your cabin; a flashlight might be advisable. If you need a guide, check in at the dining hall, also all important notices about clean-up details, workshop locations, etc. will be posted in the dining hall. Be sure to wear your F.S.G.W. tags! See you then,

*Don Purdue*
